

2015, The year that was for Gauteng Transplant Sports

The undisputed highlight of the year was the WTG 2015 for those athletes who were fortunate enough to attend. Most of our region's activities were centered around this event. Our athletes did us proud and came home with a lot of medals. We had a blazer ceremony at Milpark Hospital just before the athletes departed that was well attended and filled with excitement.

The annual golf day was again bigger and better than the previous year and it's nice seeing the regular faces come back every year, Next year promises to yet again exceed this year's turnout.

Our most exciting prospect is hosting the 2016 National Games in October and opening our "home" to the athletes from around the country. Excitement is high among our athletes to make these Nationals unforgettable.

We hope everyone has a relaxing holiday period and will be ready for 2016 when transplant sports hits Johannesburg!
